PL Foams Hospital Mattress Available in two variants

- Standard Hospital Mattresses
- Therapeutic Foam Mattresses

Standard Hospital Mattresses

Features

Made of High Quality Antimicrobial Polyurethane foam compliant to international standards

Tested for 24 hours usage by patients

Hygienically treated to prevent breeding of dust-mites, fungi & bacteria

Available in 1/2/4 Sections without any extra cost

Most suitable for Semi - fowler / fowler or Beds used for General Wards

Therapeutic Foam Mattresses

Features

Foam construction is protective, comfortable, and provides support and relief to pressure points along the body

Convoluted top layer reduces pressure, making it more comfortable

Waterproof and anti-microbial cover makes for easy cleaning

Nylon cover reduces skin shear and friction

Designed to promote airflow, helping prevent bedsores and pressure ulcers

Fairly expensive in comparison to other mattresses in our range
